

DCN multimedia Webcast Application

www.boschsecurity.com

BOSCH
Invented for life

- ▶ Broadcast meetings live over the internet
- ▶ Record live meeting
- ▶ Publish recorded meeting online
- ▶ Add PowerPoint presentations, Word documents, Links, Polls and Surveys to agenda items, geographical data
- ▶ Export recorded meetings to DVD or to an intranet site

The DCN multimedia conference Webcast Application (DCNM-LWA) is a software based product that enables the user to record audio visual meetings and stream live meetings online at the same time. It also enables the user to make recorded meetings available online or on intranet.

The Webcast Application software consists of the following modules:

- Webcast application
- Webcast planner
- Webcast live site

Next to the required DCN multimedia software suite modules, a hosting package is required.

System overview

The DCNM-LWA is an addition to the DCN multimedia software suite and enables users to stream or record live meetings. The Webcast Application is used in combination with DCNM-LSYS. For live streaming it requires a wired internet connection of minimum 350 Kbit/s upstream for HD cameras. DCNM-LWA supports HD cameras.

To be able to use the Webcast Application, the hosting license DCNM-LWA12M100 is needed. It containing 100 webcast hours and a validity period of 12 months.

Delegate data, active speaker list and request to speak list will automatically be linked to the relevant agenda items in the webcast.

Functions

The following functions are configurable

- Webcast Application:
